

Printed Electronics Development Center

Daetwyler R&D is pleased to announce our Printed Electronics Development Center. At the center, we offer cylinder manufacturing and machining services to the specialty markets. Let us help you create highly-accurate cylinders for printed electronics, micro lenses, and films.

Daetwyler R&D knows micro-machining – we have built high-precision machines for over 25 years. Our cutting head is known for sub-micron accuracy. Now, with the growth of new, unique markets, we are bringing our knowledge and experience to you. Put our educated staff and specialized equipment to work for you today.

Micro-Engraving for Specialty Markets

Precision Cylinder Manufacturing Service

- Cylinder Fabrication
- Plating
- Finishing

Precision Cylinder Micro-Engraving Service

- *Collage Micro* Image Data Management
- Engraving methods
 - Diamond stylus
 - Laser
- Custom requirements welcomed

Micro-Engraving Equipment

- μ Star Micro-Machining System
- Direct access to:
 - LaserStar Direct Laser
 - Schepers In-direct Laser

Engineering Support

- Multi-Disciplined Engineering staff
- Link to broad Daetwyler experience
- Link to Universities and Industrial Base
